

Course title: <b>THEORIES OF SOCIAL WORK AND SOCIAL POLICY – INTERNATIONAL PERSPECTIVES</b>	
Course coordinator: Assist. Prof. Dr. Vesna Leskošek	
Lecturers: Prof. Dr. Silvia M. Staub-Bernasconi, Assist. Prof. Dr. Vesna Leskošek, Prof. Dr. Mikko Mäntysaari, Assist. Prof. Dr. Maria Maiss, Prof. Dr. Sabine Hering.	
No. of hours: <b>250</b> Lectures: <b>30</b> Seminar: <b>15</b> Field work: <b>0</b> Other: <b>205</b>	
ECTS: <b>10</b>	

2.	Prerequisites:	Second-level study programme evaluated with at least 300 credits; Existing university study programmes in social and applied sciences, art and humanities, exceptionally in other sciences. Knowledge about the theories of social work taught at the national level.
3.	Objectives of the course and intended	<ul style="list-style-type: none"> <li>• Solid knowledge about the discipline and profession of social work and its relation to social policy – overview over their main theoreticians and theoretical debates in an international comparative way.</li> <li>• Knowledge and the awareness on the importance of historical perspective in analyzing current policies and practices.</li> <li>• To provide students with critical and holistic overview of current global and EU processes and their impact on the every day life of people, especially those experiencing poverty, exclusion or problems in their social status.</li> </ul>
4.	Envisaged learning outcomes: learning outcomes (competences):	<ul style="list-style-type: none"> <li>• Capacity of analysis of theories of social work and social policy according to their basic ontological and epistemological assumptions</li> <li>• Capacity to reflect critically old and new theories of social work and their link to social policy and being able to see their implications for social work practice und social policy on a local, national and international level</li> <li>• Capacity to integrate and apply social policy theories with processes and policies on international and national levels – to synthesize and contextualize analytical knowledge</li> <li>• To be able to anticipate future impacts of policies and developments in the filed of social work and social policy</li> </ul>
5.	Contents (Syllabus outline):	<b>I. BASIC CONCEPTS</b>

- Paradigm, theory, model, concept, action theory, method, technique
- Ontological (e.g. realism vs. constructivism, the micro-macro-link) and epistemological (e.g. truth, intuitionism vs. rationalism, phenomenology/positivism vs. critical rationalism) approaches to theory construction
- Description, explanation/understanding (verstehen/determination-indetermination), valuation, actor-system, planned action, solution-orientation - as professional knowledge types
- Theory/Science-Based Practice – the role of science in social work and social policy
- Professionalisation
- Comparison of theories and methods – the dimensions

## **II. SOCIAL WORK THEORIES AND METHODS IN COMPARATIVE PERSPECTIVE**

- 1. Basic/Classical Texts – a historical and actual overview in comparative perspective**
  - Biographies
  - Theoretical contributions
  - Social work/social pedagogy
- 2. Social and learning problems as object base of social work**
  - Theories of human needs and human learning
  - Individual/categorial marginality and exclusion (poverty, unemployment, discrimination, racism/sexism, violence etc.) and problems of socialisation and learning during the life cycle
  - The individual as member of horizontal interaction-types, vertical power structures and subcultures
- 3. Philosophical and theoretical approaches to social work**
  - Philosophical approaches
  - Theoretical approaches
- 4. Values, ethics and goals of social work theories**
  - Well-Being
  - Emancipation
  - Social Justice, equality, solidarity
  - Human dignity and human rights
- 5. Actors and practice fields of social work**
- 6. Research-based methods of social work**

- The action-centered general questions of each method
- Cultural, societal and organisational context as condition for professional action
- Different science-based methods (e.g. resource mobilisation, conscientisation, transcultural understanding, mediation, capacity(strength-) building, empowerment/advocacy, contributions in public debates etc.)
- Methods according to different social levels: individual, family, group, community/ecology, organisational level
- Changing the organisational, cultural and societal conditions?
- Evaluation procedures

### **III. THEORIES AND APPROACHES OF SOCIAL POLICY IN COMPARATIVE PERSPECTIVE**

- **Basic/classical texts**
  - Philosophies and theories of social policy
  - Welfare paradigm,
  - Welfare regimes,
  - Basic principles and comparative development
- **Social inequality, poverty and globalisation**
  - The Washington Consensus and its worldwide consequences
  - New poverty (working poor)
  - Flexicurity, work, trade unions and social rights,
  - Social Europe
  - Globalisation and the role of civil society
  - New social movements, including religious fundamentalism
- **The object and actor base of social policy**
  - Power, control and state regulation
  - Defining social problems
  - Strategies of marginalization and ideology of exclusion/cohesion
  - Criminalization of poverty (migrants, people without papers, minorities)
  - Policy of gender, age, body, nationality and religion
- **Social policy planning and intervention**
  - Critical policy analysis
  - State, market, civil society and privatisation
  - Responsive services and the role of users
  - Democratic participation in service creation and delivery

#### **IV. LINKS BETWEEN SOCIAL MICRO- AND SOCIAL MACROPRATICE (JOINT TEACHING)**

- The links between social work and policy, micro and macro-practice
- Multilevel practice - from the local to the international level
- Transnational Social Policy – the globalisation of social work and social policy
- Case Studies

6.

Teaching methods:	<ul style="list-style-type: none"> <li>• Lectures, seminars, workshops, presentations</li> <li>• Group assignments</li> <li>• Text analysis according to the basic questions of an Applied Science/ Professional Theory</li> <li>• Comparison of theory-, policy-concepts in their relevance for practice</li> </ul>
	<p>The students can gain the required credits with attendance at the lectures or with the participation at the seminars which are dealing with the above mentioned area. Students will be supervised during their self study hours. Since it is an international study programme, some classes will be delivered electronically (videoconferences, teleconferences, DVD, chat etc.).</p>
8.	<p>Assessment methods:</p> <p>The students will be required to show full knowledge of the required literature with emphasis on their own research topic. The assessment methods will include:</p> <ul style="list-style-type: none"> <li>- Assessment of the individual research work related to the module;</li> <li>- student's presentations of the theoretical part of the doctoral thesis and/or writing and presentation of a subject related seminar paper showing that one is able to analyse and criticize conceptions of social work theory and social policy according to their philosophical premises and implications for practice.</li> </ul> <p>In special circumstances the student can ask to be assessed with oral or written exam instead of the above mentioned assessment methods.</p> <p>Seminar papers, projects, research work are graded according to the following grading scale:</p> <p>10 – excellent: outstanding performance with only minor errors      9 – very good: above the average standard but with some errors      8 – good: generally sound work with a number of notable errors      7 – satisfactory: fair but with significant shortcomings      6 – sufficient: performance meets the minimum criteria      1-5 – fail: performance does not meet the minimum criteria</p> <p>At the end of the module the student will gain 10 credits.</p>
